agricultural and industrial spraying systems.**

A D D I T I V E

NET CONTENTS: 10 LITRE

™Trademark of Tapuae Partnership, NZ.

ACTIVE INGREDIENT: Contains 880g/L Octoxynol-9 in the form of a soluble concentrate.

WARNING: May be harmful if swallowed, inhaled or absorbed through the skin.

FIRST AID: If medical advice is needed : Have product container or label present. If swallowed, DO NOT induce vomiting. Give nothing by mouth. Take to hospital without delay. If skin contact occurs, remove contaminated clothing and wash affected areas of skin. DO NOT scrub the skin.

Get medical attention if irritation persists. If concentrate is splashed in eyes, hold lids open and flush with water for 15 minutes. Take to hospital immediately. For advice, contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately.

PERSONAL PROTECTION: Avoid contact with skin or inhalation of spray mist. Gloves should be worn at all times. Wear eye protection when handling the concentrate. Ensure adequate ventilation when handling the concentrate. Remove protective clothing and wash hands and face thoroughly before meals and after work. Wash protective clothing daily after work. Do not eat, drink or smoke while using this product.

ECOTOXIC: Toxic to aquatic organisms with long lasting effects. Avoid contamination of any water supply with product or empty container. Harmful to terrestrial vertebrates.

DISPOSAL: When empty triple rinse container and add residue to spray tank. Dispose of this product only by using according to the label, or at an approved landfill, or other approved facility. Avoid contamination of any water supply or stream with product or empty container.

STORAGE: Store in original container out of reach of children.

SHELF LIFE: When stored appropriately this product should show no significant degradation for 2 years from date of manufacture. Contact your supplier for further information about the use of any product that is older than this.
