

DEPTH CHARGE™

**Adjuvant to assist the placement of
aquatic herbicides**

A D D I T I V E

NET CONTENTS: 10 LITRE

™Trademark of Tapuae Partnership, NZ.

FIRST AID: If swallowed, DO NOT induce vomiting. Give nothing by mouth. Take to hospital without delay. If skin contact occurs, remove contaminated clothing and wash affected areas of skin. DO NOT scrub the skin. Get medical attention if irritation persists. If concentrate is splashed in eyes, hold lids open and flush with water for 15 minutes. Take to hospital immediately. For advice, contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately.

PERSONAL PROTECTION: Avoid contact with skin or inhalation of spray mist. Gloves should be worn at all times. Wear eye protection when handling the concentrate. Ensure adequate ventilation when handling the concentrate. Remove protective clothing and wash hands and face thoroughly before meals and after work. Wash protective clothing daily after work. Do not eat, drink or smoke while using this product.

DISPOSAL: When empty triple rinse container and add residue to spray tank. Dispose of this product only by using according to the label, or at an approved landfill, or other approved facility. Avoid contamination of any water supply or stream with product or empty container.

STORAGE: Store in original container out of reach of children.

SHELF LIFE: When stored appropriately this product should show no significant degradation for 2 years from date of manufacture. Contact your supplier for further information about the use of any product that is older than this.

MATERIAL SAFETY DATA SHEET: Additional information is listed in the MSDS available from Zelam Limited or www.zelam.co.nz

Depth Charge is a viscous, non volatile, low toxicity adjuvant to assist the sinking and controlled dispersion of contact herbicides in the aquatic environment.

APPLICATION

IMPORTANT: Do not entrain air during mixing or product may not sink as desired.

MIXING INSTRUCTIONS:

Depth Charge should be mixed 1:1 by volume with 200 g/litre diquat products (e.g. Reglone)

- 1) For small volumes mix in bucket or suitable open top container ensuring minimum air entrainment.
- 2) For larger volumes add diquat product to tank, start pump on full bypass and slowly add Depth Charge. Mix until a smooth product is achieved.

Apply mixed product at 40 - 60 litres per hectare.

NOTES FOR APPLICATION:

Conventional spraying equipment with some modifications is suitable. The mixture of diquat product and Depth Charge is applied neat.

Do not add wetting agents or other additives.

In drains and waterways do not treat where water is flowing more than 1km/hr.

The mixture is not effective in turbulent or muddy waters or where suspended organic matter is above 1ppm.

NOTICE TO BUYER: The manufacturer and vendors of **DEPTH CHARGE** warrant the formulation to contain the specified active ingredient within accepted tolerance but make no warranty of any kind on the uses of material and accept no responsibility, whether the material is used in accordance with the label directions or not.
