100% Non-ionic Surfactant

**Improved spreader activator for
agricultural and horticultural sprays**

A D D I T I V E

NET CONTENTS: 5 LITRES

TM Trademark of Tapuae Partnership, NZ.

PLEASE READ ENTIRE LABEL BEFORE MIXING OR APPLYING.

ACTIVE INGREDIENT: Contains 100% non-ionic surfactant.

WARNING: May be harmful if swallowed, inhaled or absorbed through the skin. May cause sensitisation from prolonged skin contact.

PRECAUTIONS: Keep out of reach of children. Avoid direct contact of the concentrate with skin or eyes. When handling concentrate, eye protection is recommended.

FIRST AID: If medical advice is needed : Have product container or label present. If swallowed DO NOT induce vomiting. For advice contact the National Poisons Centre 0800 POISON (0800 764 766) or a doctor immediately. If skin contact occurs, remove contaminated clothing and flush skin with running water for at least 15 minutes. If splashed in eyes, wash out immediately with water.

ECOTOXIC: Harmful to terrestrial vertebrates.

STORAGE: Store in original container, tightly closed, away from foodstuffs.

SHELF LIFE: When stored appropriately, this product should show no significant degradation for 2 years from the date of manufacture. Contact your supplier for further information about the use of any product that is older than this.

DISPOSAL: When empty triple rinse container and add residue to spray tank. Dispose of this product only by using according to the label, or at an approved landfill, or other approved facility. Avoid contamination of any water supply with product or empty container.

MATERIAL SAFETY DATA SHEET: Additional information is listed in the MSDS available from Zelam Limited or www.zelam.com.

ERMA NEW ZEALAND: Additional information is available from the ERMA NZ website - www.ermanz.govt.nz. Approval Code: HSR002503.

DIRECTIONS FOR USE:

Always add **Multi-Film™ Extra** to a partly filled spray tank so that the additive is mixed well with the spray solution. Do not use **Multi-Film™ Extra** with selective weed killers unless recommended.

Multi-Film™ Extra spreader sticker is formulated specially to give increased wetting of plant foliage; more uniform distribution and coverage of the spray liquid; and better penetraton of the surface of the foliage under dry conditions.

| USE | RATE |
|---|---|
| Total vegetation and non selective weed control | 25ml of Multi-Film™ Extra to 100 litres of spray solution or 1 teaspoon of Multi-Film™ Extra to knapsack sprayer (15 litres). |
| Horticultural use | 25ml of Multi-Film™ Extra per 100 litres of spray with appropriate insecticides and fungicides. |
| Aerial application | 80ml of Multi-Film™ Extra to 100 litres of spray solution. |

RATES OF APPLICATION: Dilution rates for **Multi-Film™ Extra** may vary according to the hardness of the water in different localities. The object is to use sufficient additive to give uniform coverage by the spray droplets but excessive rates may lead to undesirable foaming and unnecessary run-off.

NOTICE TO BUYER: The manufacturer and vendors of **Multi-Film™ Extra** warrant the formulation to contain the specified active ingredient within accepted tolerance but make no warranty of any kind on the uses of material and accept no responsibility, whether the material is used in accordance with the label directions or not.
