PLEASE READ THE LABEL COMPLETELY BEFORE USE

This product must be under control of an approved handler during use. See MSDS for details. A record must be kept of the use and disposal of this product

HSNO Classifications: 6.1E, 6.3B, 6.5B, 6.9B, 9.1C, 9.2D

WARNING

May be harmful if swallowed
Causes mild skin irritation
May cause an allergic skin reaction
May cause damage to organs through prolonged or repeated exposure
Harmful to aquatic life with long lasting effects
Harmful to the soil environment

PRECAUTIONS

Do Not breathe vapours
PERSONAL PROTECTION:
Do not eat, drink or smoke while using. Wear protective clothing such as waterproof hat, coat and trousers when using. Wear protective gloves. Remove protective clothing and wash hands and face thoroughly before meals and after work. May be harmful if swallowed, inhaled or absorbed through the skin. Avoid skin contact or inhalation. Avoid contact with the eyes. Contaminated work clothing should not be allowed out of the workplace. Wash contaminated clothing before reuse

FIRST AID:

If medical advice is needed, have product container or label at hand. If swallowed immediately call the National Poisons Centre 0800 POISON (0800 764766) or a doctor immediately. Do NOT induce vomiting.
If skin contact occurs, get medical advice/attention. If on skin wash with plenty of soap and water. If skin irritation or rash occurs get medical advice/attention.
Get medical advice/attention if you feel unwell.

STORAGE:

Store in original container tightly closed and in a locked dry, cool, well ventilated area, away from foodstuffs. When stored appropriately this product should show no significant degradation for 2 years from the date of manufacture. Contact your supplier for further information about the use of this product if it is older than this.

SPILLS AND DISPOSAL:

When dealing with spills wear personal protective clothing and equipment as described in the PERSONAL PROTECTION section. Contain the spill by damming, recover spilt product by absorbing with sawdust or an inert absorbent material then transfer the recovered spilt material to a properly labelled drum. Deal with all spillages immediately. If contamination of drains, streams, watercourses, etc. is unavoidable, warn the local water authority.
Disposal: Dispose of this product only by using according to the label or at an approved landfill. Avoid contamination of any water supply with product or empty container.

Container disposal: Triple rinse container and add residue to mixture. Burn if circumstances, especially wind direction, permit. Otherwise bury in a suitable land fill.

SHELF LIFE:

When stored appropriately, this product should show no significant degradation for 2 years from the date of manufacture. Contact your supplier for further information about the use of any product that is older than this.

SAFETY DATA SHEET

If additional hazard or safety information is required, refer to the Safety Data Sheet. For a copy visit our website at www.zelam.co.nz.

IMPORTANT NOTES

Gnawed canary grass (*Phalaris paradoxa*) is not controlled by Foxtrot at label rates.
Do not overlap swath width in ryegrass crops as yield suppression may occur.
Do not use Foxtrot with any other agrochemical or spray additive when applying to Perennial ryegrass.

Resistant weeds: Annual and Hybrid ryegrasses, tall fescue, chewing's fescue, cocksfoot, browntop, grazing brome(=spiky brome – *Bromus stamineus*), prairie grass and most broadleaved weeds.
Rainfastness: Puma S is rainfast within one hour of application

Withholding period:
Barley and Wheat 70 days (Do not graze treated crop for at least 70 days after treatment)
Perennial ryegrass 42 days (Do not graze treated crop for at least 42 days after treatment)

Soil Activity: Foxtrot is rapidly broken down by soil microbes causing no restrictions on crop rotations. Undersown crops: Foxtrot can be used on crops undersown with certain grasses (See under "Resistant Weeds" above) and clover. Do not use on crops undersown with "Concord" ryegrass.

DIRECTIONS FOR USE

Mixing: Shake well before use. Add the required amount to a partly filled spray tank with agitation system operating. Complete filling the tank with water and apply.

Flush spray system with clean water after use.

Compatibility: DO NOT USE FOXTROT IN ANY MIXTURES WHEN APPLYING TO PERENNIAL RYEGRASS. When used on barley and wheat, Foxtrot can be tankmixed with Cycocel * and Opus[®] in 2 and 3 way mixes. Care must be taken to ensure that recommended timings for all products are followed. The addition of a suitable adjuvant oil such as D-C-Trate or Hasten at label rates is recommended. DO NOT use Foxtrot within 5 days of broad-leaved herbicide applications.

Crop	Weeds	Rate	Remarks
Barley, Wheat	Wild oats	750 mL/hectare in 250 litres of water.	Apply when wild oats are between 3 leaf and 1 st node visible growth stage and when they are growing actively
	Lesser canary grass (<i>Phalaris minor</i>)	Add adjuvant oil at recommended rates	Apply when weeds are between the 3 leaf visible stage and the end of tillering and are growing actively. Avoid application during periods of moisture stress.
Perennial ryegrass (<i>Lolium perenne</i>)	Wild oats	750 mL/hectare in 250 litres of water. DO NOT use with any other agrochemicals or adjuvants.	Apply in early spring when wild oats are between 3 leaf and end of tillering growth stage and growing actively. Note: Seed yield response is likely to be reduced the longer the delay in the removal of wild oats in spring.
